

Meritor Part

Meritor Parts - Meritor is a leading international supplier which is proudly founded on a one hundred year tradition of service and quality. They specialize in a broad range of modules, integrated systems and components to original equipment manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor starts with a philosophy which values diversity of people and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor encourages collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in just employing future focused workers. These top-caliber workers could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required to get results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor provides all their staff various chances for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, braking and suspension systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of their international engineering employees.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all over the globe in 19 countries and in 5 different continents.

They have their supplier network that is specifically situated so as to support the development of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
