

Forklift Spreader Bars

Forklift Spreader Bars - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader business all over the world. They have been a dedicated maker of spreaders meant for different applications like for example the swap bodies, trailers and handling of containers.

ELME now employs more than 125 staff with all engineering is done in house by means of using all the newest FEM tools and CAD systems. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry all-around the world.

The product series of ELME comprise lots of spreaders used for several container and trailer handling operations. Some of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes as well as a wide range of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they made over 1150 spreaders by means of utilizing top quality parts in order to ensure dependability and top standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market feedback and ground-breaking modular spreader concept.
